IN THE CLAIMS:

Please amend claim 38 as follows:

A4 38. (Amended) A signalling kit for use in a signalling system according to claim 1, comprising a plurality of cell signalling devices [according to claim 37.] each of which comprises:

a power input terminal connectable to the cell or cells which is or are to power said cell signalling device; and

at least one DC level shift circuit which is operable (i) to receive signals transmitted from an adjacent cell signalling device; (ii) to shift the DC level of the received signals; and (iii) to output the level shifted signals for transmission to the communication link forming part of said signalling system.

Respectfully submitted,

Thomas Langer
